1. The following is an examiner's statement of reasons for allowance:

In regard to claims 1-3, 9, 10 and 12-22, the prior art does not disclose the image processing device, image processing method, or image processing program with the combination of limitations stated in the claimed invention, specifically the limitations of:

a joining portion for joining the two divided images based on the plurality of corresponding point sets after the geometric transformation, wherein

a significant overlap region is determined among overlap regions of each image, said significant overlap region is a region where the largest number of said divided images overlap with each other, and

said joining portion joins said divided images by placing importance on said significant overlap region, as stated in claims 1, 9, 17, and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
